MIDDLE EAST SOCIETY FOR SEXUAL MEDICINE

A professional Society for Sexual Medicine in the Middle East region was founded in August 2010 by a group of highly respected Sexual Medicine Specialists from the Middle East.

The Middle East Society for Sexual Medicine (MESSM) is a non-profit organization whose aims are to:

1. Encourage the highest standards of practice, education and research in the field of human sexuality;
2. Develop scientific methods for the diagnosis, prevention and treatment of conditions affecting human sexual function;
3. Promote the publication of medical and scientific literature in the field of sexual function.

SAUDI UROLOGICAL ASSOCIATION

The Saudi Urological Association (SUA) has prioritized the following professional goals: the promotion of, and diffusion of interest in, the field of urology; the advancement of urological scientific research and publication; and the establishment of a closer relationship on local, regional, and international levels among those working in this field.

TARGET AUDIENCE

The target audience for this symposium includes all physicians interested in Male Sexual and Reproductive Medicine whether Andrologists, Urologists, Gynecologists, Endocrinologists and Primary care physicians.

AIM

The aim of the Symposium is that after the Symposium the participants should be able to:

1. Deal with cases of varicocele, which represents a commonly encountered male abnormality, in various situations;
2. Recognize the role of Traditional and Islamic Medicine in managing male patients in the clinical setting
3. Be able to address patient concerns about controversial topics such as penile augmentation, stem cell therapy, off-label use of CCH, ESWT, refractory premature ejaculation and the relationship between CPPS and sexual dysfunction;
4. Acquire the knowledge for addressing scientifically the myths and misconceptions regarding traditional medicine and sexuality and be able to educate patients about conflicts they might perceive;
5. Acquire the knowledge to deal with challenging male infertility situations such as adult cryptorchidism and azoospermia.

LOCATION

Elaf Hotel Redsea Mall, Jeddah
