

Report on the Roles, Responsibilities, Goals, and Objectives of the Scientific Committee Middle East Society for Sexual Medicine (MESSM)

1. Introduction

The Scientific Committee of the **Middle East Society for Sexual Medicine (MESSM)** is a core academic body responsible for ensuring the scientific excellence, integrity, and educational impact of all activities organized or endorsed by the Society. The Committee oversees the development, review, and evaluation of scientific programs related to sexual medicine and allied disciplines, including conferences, congresses, workshops, webinars, and other educational initiatives.

2. Roles of the Scientific Committee

The Scientific Committee serves as the principal scientific and advisory authority within MESSM. Its key roles include:

- Providing strategic scientific leadership aligned with MESSM's mission to advance sexual health education, research, and clinical practice in the Middle East.
 - Guiding the scientific direction of MESSM's educational and academic activities.
 - Ensuring scientific independence, objectivity, and adherence to evidence-based medicine.
 - Advising the MESSM Executive Board on scientific priorities, emerging trends, and unmet educational needs in sexual medicine.
-

3. Responsibilities of the Scientific Committee

3.1 Scientific Program Development

- Preparing, structuring, and reviewing the scientific programs for all MESSM activities, including congresses, symposia, workshops, webinars, and training courses.
- Defining session themes, learning objectives, formats, and target audiences.
- Ensuring comprehensive coverage of sexual medicine, including andrology, female sexual dysfunction, psychosexual medicine, reproductive health, and related subspecialties.

3.2 Speaker and Faculty Selection

- Nominating, evaluating, and approving speakers, moderators, and faculty members based on scientific merit, clinical expertise, and academic contributions.
- Promoting balanced representation of regional and international experts, while supporting emerging professionals and young investigators.

3.3 Content Review and Quality Assurance

- Reviewing abstracts, presentations, and educational materials to ensure scientific accuracy, relevance, and compliance with ethical and professional standards.
- Ensuring that all scientific content is evidence-based, up to date, and free from inappropriate commercial bias.
- Ensuring compliance with continuing medical education (CME) and accreditation requirements when applicable.

3.4 Evaluation and Continuous Improvement

- Evaluating scientific outcomes and educational effectiveness through participant feedback and post-event assessments.
- Identifying gaps in knowledge and recommending improvements for future MESSM activities.
- Encouraging innovation in educational methods and scientific delivery formats.

4. Goals of the Scientific Committee

The goals of the Scientific Committee of MESSM are to:

- Uphold the highest standards of scientific excellence and academic credibility in all MESSM activities.
- Promote continuous medical education and professional development in sexual medicine across the Middle East.
- Facilitate the dissemination of current research, clinical guidelines, and best practices.
- Strengthen regional and international scientific collaboration in the field of sexual medicine.

5. Objectives of the Scientific Committee

To achieve its goals, the Scientific Committee aims to:

- Develop high-quality, well-structured scientific programs addressing current and future challenges in sexual medicine.
- Standardize scientific quality across all MESSM-endorsed educational activities.
- Encourage multidisciplinary and culturally sensitive approaches to sexual health.
- Maintain transparency, ethical conduct, and scientific independence in all scientific activities.
- Support capacity building, research advancement, and clinical excellence within the Middle East region.

6. Conclusion

The Scientific Committee is fundamental to fulfilling MESSM's mission of advancing sexual health education, research, and clinical practice. Through its clearly defined roles, responsibilities, goals, and objectives, the Committee ensures that all scientific activities conducted under the MESSM umbrella meet the highest standards of quality, relevance, and integrity, thereby contributing to improved sexual health outcomes across the region.
